

To Whom This May Concern:

Testimonial for Breworks Design & Communications Pte Ltd

Stiefel Laboratories Pte. Ltd (Singapore) started our relationship with Breworks Design & Communications (BDC) in mid 2007. BDC was involved in the launch of our first aesthetics brand, Revaléskin, in Asia Pacific, and is instrumental in the conceptualization of the campaign components and mechanics, adaptation of global artwork and event management of our inaugural forums with eminent aesthetics doctors and Stiefel marketers as attendants.

BDC's creativity and hard work is the evident of their great passion and commitment in the advertising industry. BDC's success stems from their diligent background research of the marketplace, competitive landscape and customers' desires. This is fundamental to the conceptualization and execution of a holistic campaign which is both complete and compelling.

BDC displayed professionalism in every aspect of their work and managed challenging deadlines, stipulated budget and clients' expectation beyond expectations.

I personally endorsed this letter as a token of my appreciation to **Breworks Design & Communications Pte Ltd** for all their hard work and efforts as a valued business partner. I will not hesitate to recommend BDC to any company who requires impeccable event & management service, creativity, breathtaking design and passionate services.

Yours Truly,

June Lum
Regional Marketing Manager (Asia Pacific)
Stiefel Laboratories Ltd
